

Multiple Choice Questions (MCQs)**CLASS: VI****SUBJECT: COMPUTER****Chapter – 1**

- Question 1) _____ are the fastest computers in the world.
 (a) Super Computer (b) Mini Computer (c) Micro Computer
- Question 2) _____ is the most expensive computer in the world.
 (a) Super Computer (b) Mini Computer (c) Micro Computer
- Question 3) _____ is an Indian Super Computer.
 (a) RARAM 10000 (b) PARAM 2000 (c) PARAM 30000
- Question 4) Personal Computer are also known as _____.
 (a) Mini computer (b) Micro computer (c) Mainframe computer
- Question 5) Personal computer have _____ storage capacity.
 (a) less (b) Moderate (c) High
- Question 6) Embedded computer is also known as _____.
 (a) Micro controllers (b) Macro controllers (c) Metro controllers
- Question 7) Which Language directly corresponds to a specific machine ?
 (a) Low Level Language (b) High Level Language
- Question 8) _____ was the first type of programming language to be developed.
 (a) Machine Language (b) Assembly Language (c) Java
- Question 9) Machine Language uses _____ digits '0' and '1' for giving instruction.
 (a) octal (b) Binary (c) Decimal
- Question 10) Assembly Language uses _____ to give instructions.
 (a) Mnemonics (b) Code (c) Semantics
- Question 11) The another name of Assembly Language is _____.
 (a) Symbolic programming Language (b) A saturated Language (c) Binary Language
- Question 12) _____ and _____ are used as translators in HLL.
 (a) Compiler, interpreter (b) Interpreter, Assembler (c) Assembler, Compiler
- Question 13) BASIC stands for _____ all purpose Symbolic instruction code.
 (a) Beginners (b) Buyers (c) Boilers
- Question 14) FORTRAN stands for _____ Translation.
 (a) Formula (b) Function (c) Fundamental
- Question 15) ALGOL stands for Algorithmic _____.
 (a) Language (b) Layers (c) Linkers
- Question 16) _____ is translator program that converts the HLL program into object code.
 (a) Compiler (b) Partial (c) Line by line
- Question 17) _____ is a translator program that converts HLL program Line by Line.
 (a) Compiler (b) Interpreter (c) Assembler
- Question 18) _____ generates list of errors and show it to the user.
 (a) Compiler (b) Interpreter (c) Linker
- Question 19) While using _____ program execution will stop until error is removed or debugged.
 (a) Interpreter (b) Compiler (c) Object code
- Question 20) _____ are closer to human Language than other high Level Language.
 (a) 1 GL (b) 4 GL (c) 2 GL
- Question 21) There are _____ type of languages.
 (a) Two (b) Three (c) Four
- Question 22) Type of Low Level Language : Machine Language and _____ Language.
 (a) Assembly Language (b) Machine Language (c) Java
- Question 23) Language can be divided in to _____ categories.
 (a) five (b) six (c) two
- Question 24) Two categories of languages are Low Level Language and _____.
 (a) High Level Language (b) Assembly Language (c) Binary Language
- Question 25) _____ computers are used in industries for specific tasks.
 (a) Mini (b) Macro (c) Super

Chapter – 2

- Question 1) _____ are symbols you can use when you don't know exactly what you're looking for but can almost guess
 (a) wildcard (b) Forest card (c) Cinema card
- Question 2) There are _____ type of wildcards supported in windows search.
 (a) one (b) two (c) three
- Question 3) Two wildcard character supported in windows search are _____ and _____.
 (a) *? (b) ** (c) ??
- Question 4) A file format is the _____ of a file in terms of how the data within the file is organized.
 (a) Layout (b) Figure out (c) Printout
- Question 5) Using an _____ allows you to replace a string of text.
 (a) asterisk (b) ? (c) *?
- Question 6) The wildcard _____ lets you replace it for any character in a search.
 (a) ? (b) * (c) *?
- Question 7) A particular file format is often indicated as part of a file's name by a file name extension
 (a) Suffix (b) Prefix (c) Post fix

- Question 8) The file format of Microsoft Word Document is:
 (a) doc (b) mab (c) paf
- Question 9) PDF opens in _____.
 (a) Acrobat reader (b) Power Point (c) Microsoft word
- Question 10) XLS opens in _____.
 (a) MS-word (b) MS- Excel (c) MS- Access
- Question 11) Compuserve Graphic Interchange opens in any _____ or _____.
 (a) Photo editor, Photo viewer (b) Cameraperson, Camera
- Question 12) In JPEG 'J' stands for:
 (a) Joint (b) Justice (c) Judgment
- Question 13) Zip File Format opens in:
 (a) window unzip (b) WINRAR (c) WINZIP (d) all of these
- Question 14) You can also use _____ keys as shortcut for pasting the file or folder.
 (a) Ctrl + X (b) Ctrl + V (c) Ctrl + C
- Question 15) You can also use _____ keys as shortcut in place of cut command.
 (a) Ctrl + X (b) Ctrl + V (c) Ctrl + C
- Question 16) The enhanced _____ feature provides you with a great way to view and work with multiple applications.
 (a) Snap (b) Layout (c) Design
- Question 17) With Task view virtual _____ feature, you can finally spread out all the applications that you are working on for various projects.
 (a) desktop (b) Laptop (c) Tablet
- Question 18) To sort the data in a table, move the pointer over the table _____ until _____ appears.
 (a) Top left corner, table move handle
 (b) Bottom left corner, table resize handle
- Question 19) Sort option is available in the _____ group.
 (a) Data (b) Layout (c) Design
- Question 20) On the layout tab in the _____ group change height and row size as required.
 (a) Cell size (b) Row size (c) Column size
- Question 21) On the layout tab in the _____ group click on split cells button.
 (a) Merge (b) Split (c) Merge & center
- Question 22) To merge cells, click on the layout tab in the Merge group click on:
 (a) Split cell (b) Merge cell (c) Merge and center
- Question 23) The _____ toolbar allows us to add border styles, shading, text effects, Alignment and many more options to the table
 (a) Border and shading (b) Merge and Center
- Question 24) The height and width of table cell can
 (a) be changed (b) not be changed
- Question 25) The mistakes can be erased by dragging the mouse over the area to be deleted using the _____ button from the Draw Borders group on the Design tab of Table tool
 (a) Eraser (b) Draw Table (c) Clear contents
- Question 26) To resize the table, click and drag the Table _____ at the bottom corner of the table
 (a) Resize Handle (b) Move Handle
- Question 27) To move from one cell to the cell to the right in a row press the _____ key
 (a) Tab (b) Shift (c) Ctrl

Chapter - 3

- Question 1) _____ is an arrangement of text in a row and column format.
 (a) Row (b) Column (c) Table
- Question 2) Table is an arrangement of text in a _____ and format.
 (a) Row, Column (b) Column, Cell (c) Row, Cell
- Question 3) We can use _____ to input numbers.
 (a) Row (b) Column (c) Table
- Question 4) We can perform _____ on input data.
 (a) Calculation (b) Tabulation (c) Assesation
- Question 5) Click the _____ button on the insert tab of the ribbon.
 (a) Table (b) Format (c) Layout
- Question 6) Table button is found on the _____ tab of the ribbon.
 (a) Insert (b) Format (c) design
- Question 7) Enter the number of rows and _____ for the table in the number of row and column box.
 (a) Column (b) row (c) cell
- Question 8) A table consist of _____ of rows and column.
 (a) intersection (b) Union (d) Concatenation
- Question 9) _____ are horizontal lines of cell.
 (a) Rows (b) Column (c) Cell
- Question 10) _____ are the vertical lines of cells
 (a) Column (b) Row (c) Cell
- Question 11) Press the _____ key to move from one cell to the right in a row.
 (a) Tab (b) Shift (c) Ctrl
- Question 12) _____ keys move the cursor horizontally or vertically across the cells.
 (a) cursor control (b) Shift key (c) Ctrl key
- Question 13) Click and drag the _____ at the top left corner of the table to move the table within the document.
 (a) Table Move Handle (b) Table Resize Handle (c) Table Move Handle

- Question 14) To resize the table, click and drag the table _____ at the bottom – right corner of the table.
(a) Resize Handle (b) Move Handle (c) Resize Handle
- Question 15) Ms-word program is a useful formatting tool which allows you to easily _____ rows and column.
(a) Insert (b) Format (c) Design
- Question 16) To choose the type of alignment click on the _____ tab in the _____ group
(a) Layout, alignment (b) Alignment, cell (c) Layout, row
- Question 17) To select _____ row position the cursor to the _____ of the required row.
(a) one, left (b) Two, right (c) Three, right
- Question 18) To select more than one row _____ the mouse button and drag over the required rows.
(a) Hold down (b) Release (c) Put down
- Question 19) To select one column Position the cursor Just _____ the column until it becomes a _____ arrow.
(a) above, black (b) above, white (c) below, white
- Question 20) To select more than one column click above the column, Hold down the mouse button and drag _____ the column.
(a) across (b) over
- Question 21) Click on _____ group to select insert Above or Insert Below.
(a) Row & Column (b) Layout (c) Left, Right
- Question 22) To add a new column, place the cursor in any cell on the column you want to be adjacent to then Select _____ or _____.
(a) Insert Left, or right (b) Insert Above or below
- Question 23) To delete a row or a column, select it first then right click on table in the shortcut menu followed by _____ rows on columns.
(a) Delete (b) Insert (c) Format
- Question 24) To merge cells select the cells that have to be merged. On the _____ tab in the _____ group. Click on the merge cell button.
(a) Layout, Merge (b) Format, merge (c) Design, merge
- Question 25) A table can be made presentable by giving _____ and shading.
(a) Border (b) Paint (c) Sketch
